Date IPAC lapse was linked to premise/facility: 2023-02-06

Date of initial report posting: 2023-02-08

How the potential IPAC lapse was identified: Complaint

Summary description of the IPAC lapse:

Instruments and equipment were improperly cleaned and disinfected after each client as well as single-use items not being discarded immediately after each client.

IPAC Lapse Investigation

Did the IPAC lapse involve a member of a regulatory college? No

Were other stakeholders notified (if applicable)? Not applicable

Concise description of the corrective measures required:

- **Operator to properly clean and disinfect all foot baths after each client.**
- **Operator to properly clean and disinfect all reusable implements after each use.**
- **Operator to discard all single-use items immediately after each use, and not reuse or share between clients.**
- **Operator to store all reusable implements that cannot be reprocessed immediately after use in a labelled, covered container with water (with or without detergent).**
- **Operator to ensure implements are fully immersed in the disinfectant solution.**

- **Operator to ensure chemical containers are properly labelled.**

Date any order(s) or directive(s) were issued to the owner/operator:

2023-02-06 and 2023-02-07

Final Report

Date of final report posting: 2023-02-08

Brief description of corrective measures taken: All items were in compliance as per the corrective measures indicated above. The extent of the above corrective measures was considered minimal.

Date all corrective measures were confirmed: 2023-02-07
