

Built For Zero Report Card

August 2023

BUILT FOR ZERO.
DURHAM

Built for Zero - Canada (BFZ-C) is an ambitious national change effort through the Canadian Alliance to End Homelessness (CAEH), helping a core group of leading communities end chronic homelessness. As a participant in the BFZ-C campaign, Durham Region is committed to ending chronic homelessness by 2025.

Each month, Durham Region will share information about the number of people experiencing homelessness in our community. We hope that sharing this information will promote transparency and accountability in our homelessness response.

By taking a close look at the data each month, it can help us:

- Focus on the facts (what we know), rather than the narrative (what we think)
- Adjust our services
- See what needs to be done to end homelessness
- Improve the lives of people experiencing homelessness

At least **359** people who are currently experiencing homelessness in Durham.

Of those, **215** people who have been experiencing homelessness for six months or longer.

What has Changed:

Inflow

People added to our Chronic Homelessness Number

32 People became chronically homeless. Some have been in our system before and some we met for the first time.

22 People got back in touch after having not been heard from in 60 days or more. Some people returned to town, or met the definition of chronically homeless again.

3 People lost their housing. They have been in our homelessness system before, secured housing then lost that housing.

Outflow

People removed from our Chronic Homelessness Number

3 People moved into housing. These people moved into housing (rental units, living with family, long term care home, etc.).

41 People lost touch. These people have not been heard from in 60 days or more, have left town, no longer meet the definition of chronic homelessness, or have died. People who no longer meet the definition of chronic homelessness are still captured in our overall number if they are still homeless.

What the Data is Saying about Homelessness in August:

**BUILT
FOR
ZERO.
DURHAM**

Municipality Breakdown: Actively Homeless

Ajax: 67
Clarington: 6
North Durham (Brock, Scugog, Uxbridge): 23
Oshawa: 213
Pickering: 12
Whitby: 23
*Other/ Unknown: 15

*Refers to people who may have not been living in Durham but have a meaningful connection to Durham, or who are working with the homelessness support system to complete intake information.

153 Total move-ins so far in 2023.

19 Average number of monthly move-ins in 2023.

Notes About Homelessness in 2023:

The year 2023 will continue to challenge us, with increasing need for health and homelessness supports, and a challenging housing market. We will continue to work towards our goal of ending chronic homelessness, whatever that takes.

153 total move-ins in 2023.
(80 of those were chronic move-ins.)

Community Progress Indicators:

Chronic Active Homelessness & Baseline Reduction. This chart begins with the baseline month (February 2022) and displays the most recent months of Quality By-Name List data.
