For Health Care Professionals

## Program Restoration

Durham Region Health Department is pleased to advise you that as of Monday August 30<sup>th</sup>, two additional programs have been fully restored.

### Healthy Babies Healthy Children (HBHC) Program:

This program aims to support families with their parenting goals in the prenatal and post partum period as well as throughout early child development up until school entry.

Having a baby can be both an exciting and challenging time for new parents; public health nurses and family visitors offer information and support to families through telephone calls and home visits. Note: home visits are virtual at this time and will be offered Monday to Friday 8:30am to 4:30pm.

Clients can self refer by calling the Durham Health Connection Line (905-668 2020 or 1-800-841-2729) or physicians and nurse practitioners can refer a patient by faxing the [Link to HBHC Referral Form](#) (also found at [durham.ca/HCP](http://durham.ca/HCP) under Forms and Referral).

### Infant and Child Development Program:

This program is an early intervention and prevention program that supports children from birth to school entry who have a developmental disability and/or are at risk of developmental delay. The goal of the program is to provide family-centered services in the early years of a child's development primarily in the home. Staff provide support for families to identify and plan developmental goals and work with children to help them achieve these goals. Note: home visits are virtual at this time and will be offered Monday to Friday 8:30am to 4:30pm.

Families can self refer by calling Durham Region Health Department's Infant and Child Development program at 905-668-7711 ext. 3247 or 1-800-841-2729 ext 3247

### The following Clinic Services remain open by appointment only:

**Sexual Health Clinic** A telephone assessment by a nurse will be offered to all clients, and appointments scheduled as required (both Oshawa and Pickering locations), Monday to Friday 9am to 5pm.

**Breastfeeding Clinic** Telephone, virtual, and in-person consultations will be offered as required, Monday to Friday 9am to 5pm.
