---

### IPAC Lapse Details

Date board of health became aware of potential IPAC lapse: 2024-10-30

Date IPAC lapse was linked to premise/facility: 2024-11-04

Date of initial report posting: 2024-11-13

How the potential IPAC lapse was identified: Complaint

Summary description of the IPAC lapse:

Observed the bathroom sink being used as a reprocessing sink. Observed furnishings and surfaces made of absorbent materials and/or in poor repair. Observed pedicure foot graters being disinfected with an inadequate level disinfectant. Observed two used nail buffers and a used nail file at workstations.

---

### IPAC Lapse Investigation

Did the IPAC lapse involve a member of a regulatory college? No

Concise description of the corrective measures required:

- Operator must ensure equipment cleaning/reprocessing sink is not located in a washroom.
- Operator must provide furnishings and surfaces in good repair, easily cleanable, smooth and/or impermeable.
- Operator must disinfect pedicure foot graters with high-level disinfectant after each use.
- Operator to discard all single-use items immediately after each use, and not reuse or share between clients.

Date any order(s) or directive(s) were issued to the owner/operator:

2024/11/04

---
